6. How we protect information we collect

We offer secure Web pages to collect certain kinds of user information and We store certain kinds of data in encrypted form. Although no computer system is completely secure, We believe the measures implemented on Our Website reduce the likelihood of security problems to a level appropriate to the type of data involved.

7. How long we keep user information

We generally keep user data on Our server or in Our archives for as long as We reasonably need it. We may alter this practice according to changing requirements. For example, We may delete some data if needed to free up storage space. We may keep other data for longer periods if the law requires it. In addition, information posted in a public forum could stay in the public domain indefinitely.

Data management requests are administered in an orderly manner to the extent feasible and within Our direct control. Please note that We have greater control over recently collected data than over archived data. Once data is removed from the system and archived, it may not be feasible to accommodate specific requests. In those cases, Our general data retention policy applies.
